# Different Outlook of Smart Kiosk Can Be Provided

---

# Smart Kiosk/Tray Packed with Advanced IoT Technologies

## Real-Time Video Analytics

- Camera to collect customer gender, age & emotion
- Counts traffic to the kiosk and staying duration
- On-the-spot identify return shoppers

## Touch Screen Display

- Displays product details and promotion video
- Allows customer to choose more in-depth product information
- Captures customer browsing trends

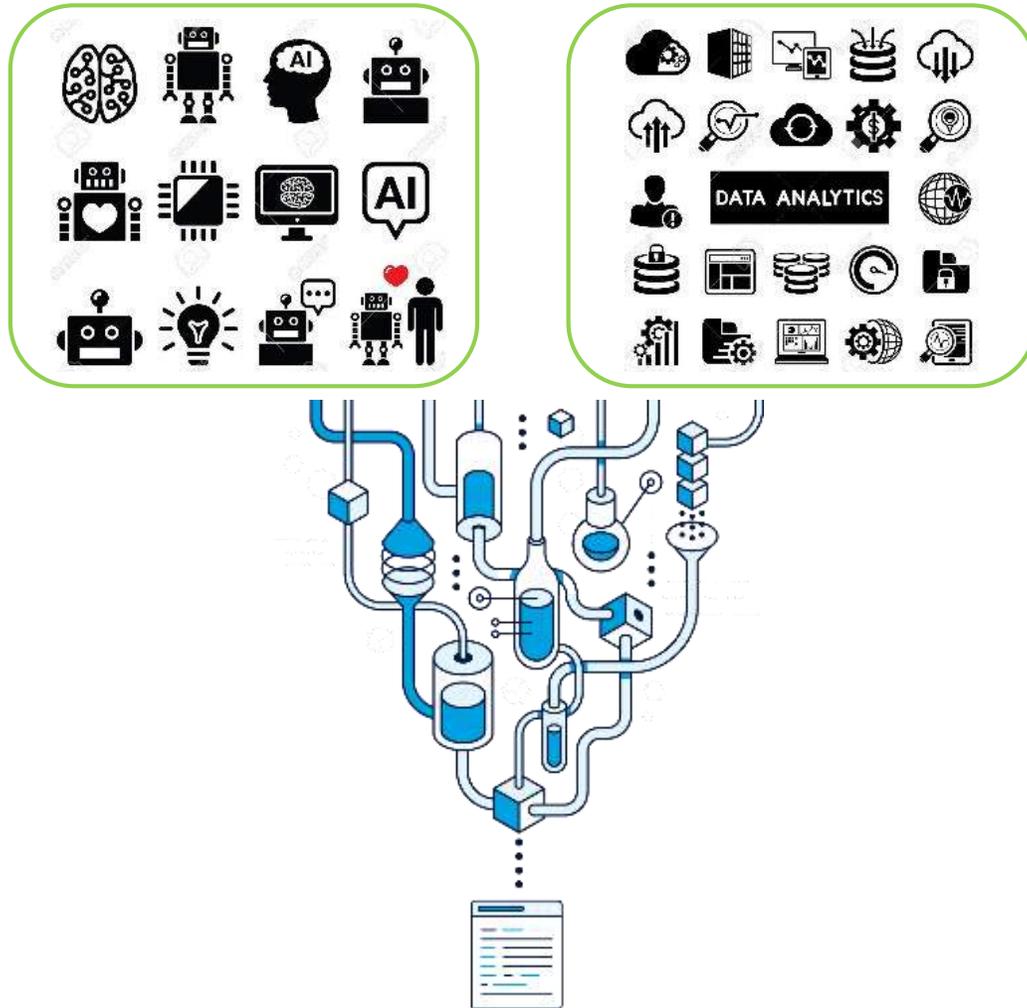

## RFID Antenna

- Detects product being picked up and duration
- Auto-Triggers on-screen product introduction

# At Heart – Advanced AI & Data Analytics for Sales & Marketing

## In-Deep Understanding Shopper Profile

- Know Your Shopper: Gender, Age, Emotion,...
- Know What Shopper Likes: Product browsed and duration

## Motivate Buying Decision

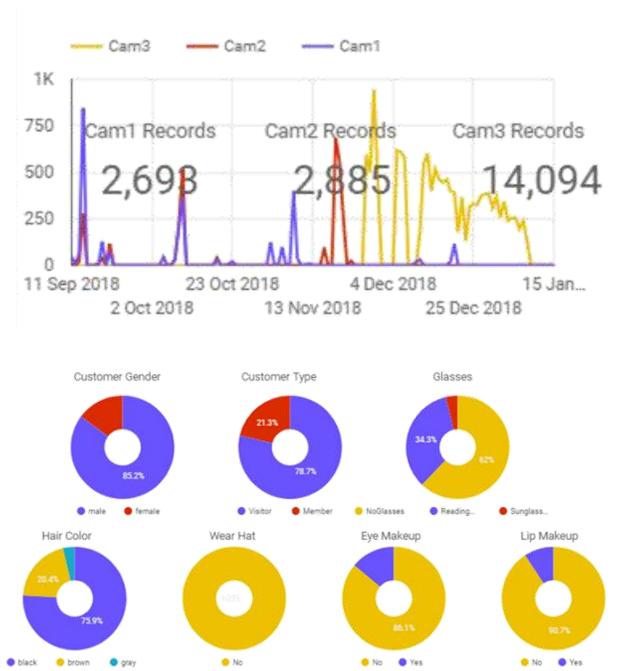

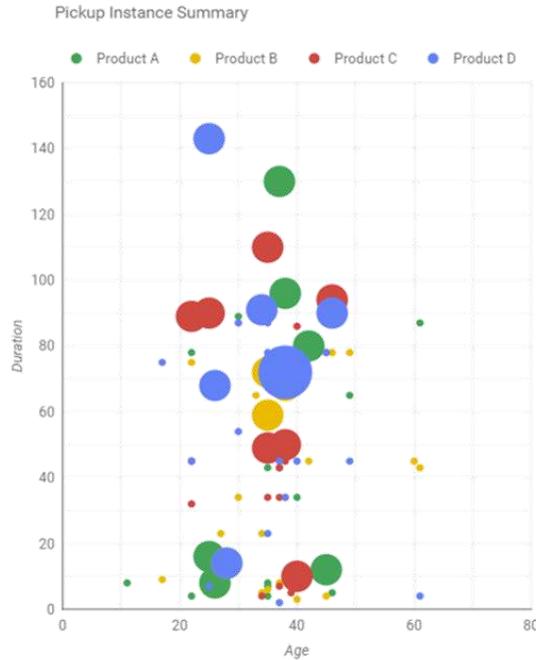

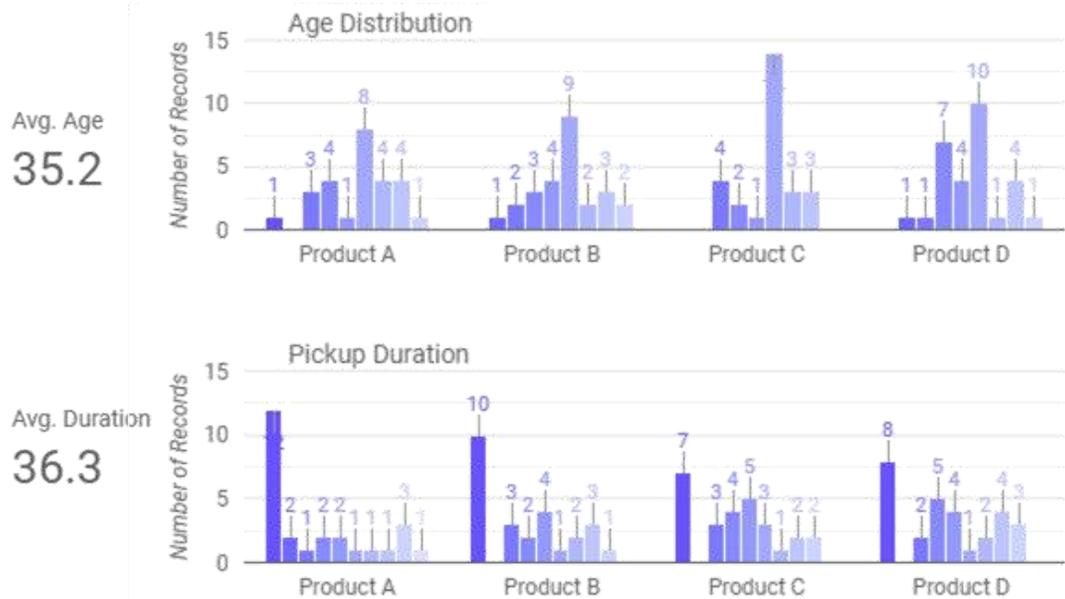

- Present personalized product information and promotional offers
- Immediate online purchase with discount offers

## Enhance Consumer Purchase Experience

- New revenue stream with Cashless Payment support
- Fast lane counter on promotional items

# In-Return with Deep Insights on Shopper Activities

- Comprehensive insights on consumer and product analytics
- Special coupon or direct purchase discount can be offered according to the number of times the same customer interested to the same product

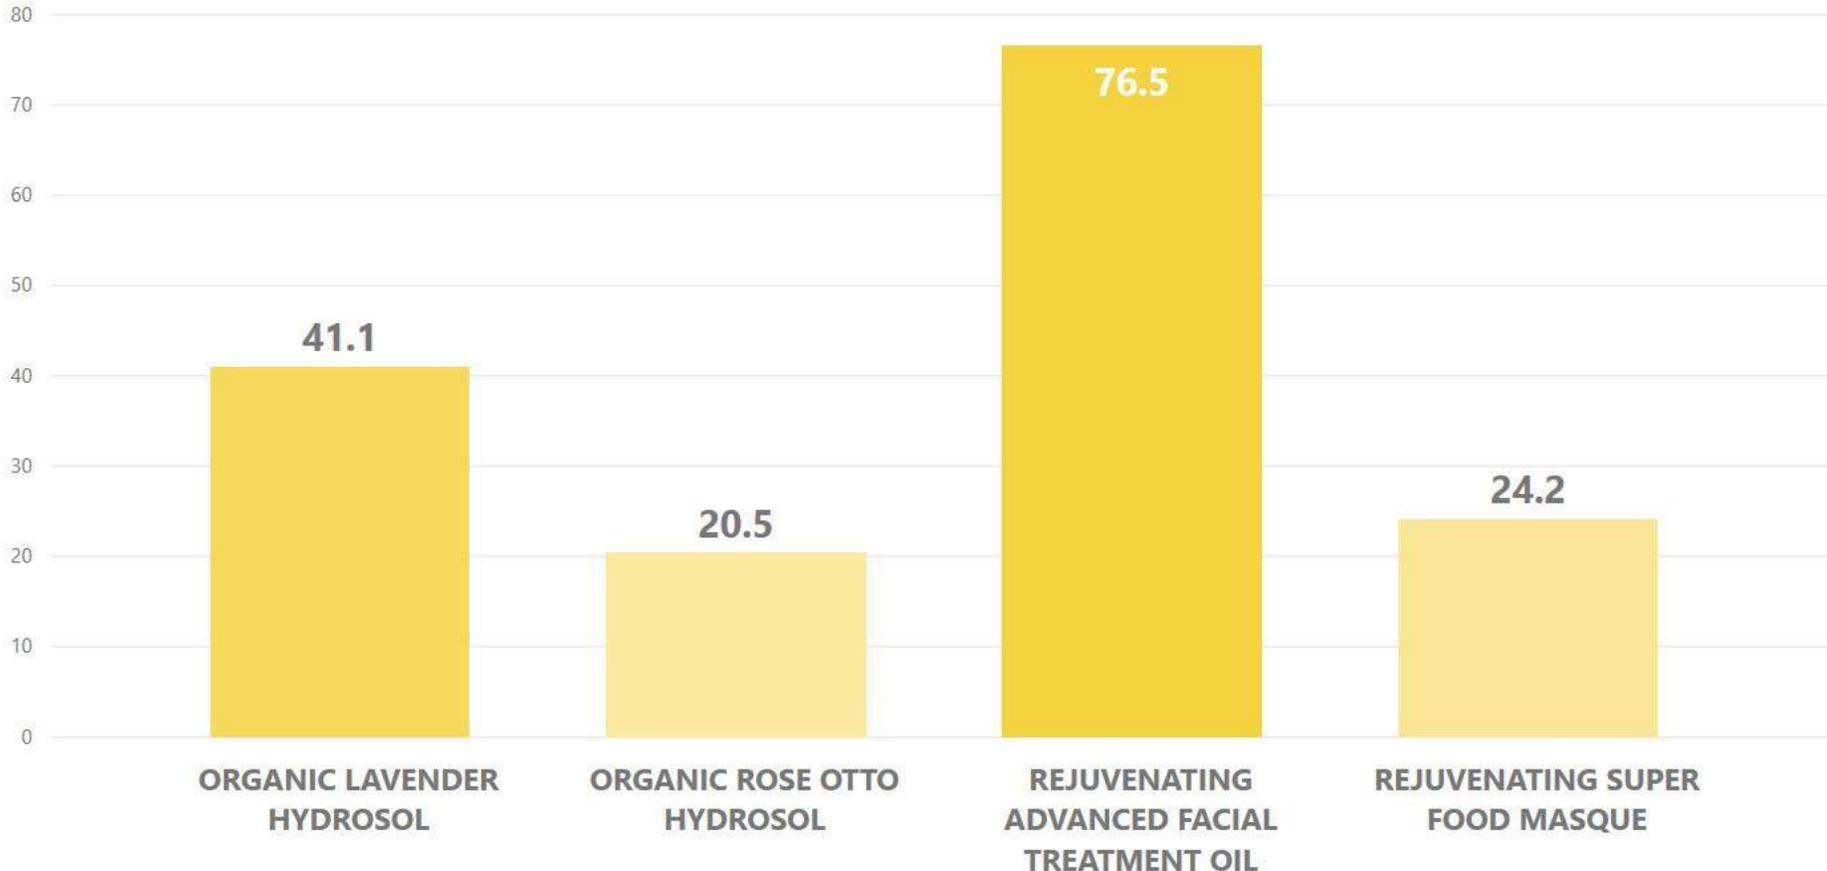

# Average duration of interaction for Facial Treatment Oil seems to be the highest among the 4 products

Average duration is derived by the sum of all duration of the products divided by the number of sessions where the product is being interacted with.

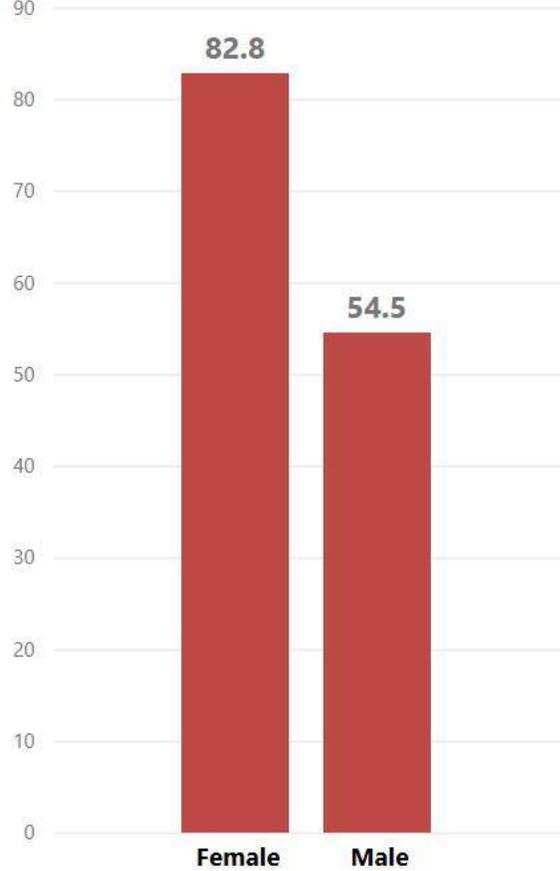

Facial Treatment Oil has the highest average interaction time of 76.5 seconds, and Lavender Hydrosol comes in second at 41.1 seconds.

Females are also interacting with the products longer than males.

Average of DURATION by PRODUCT

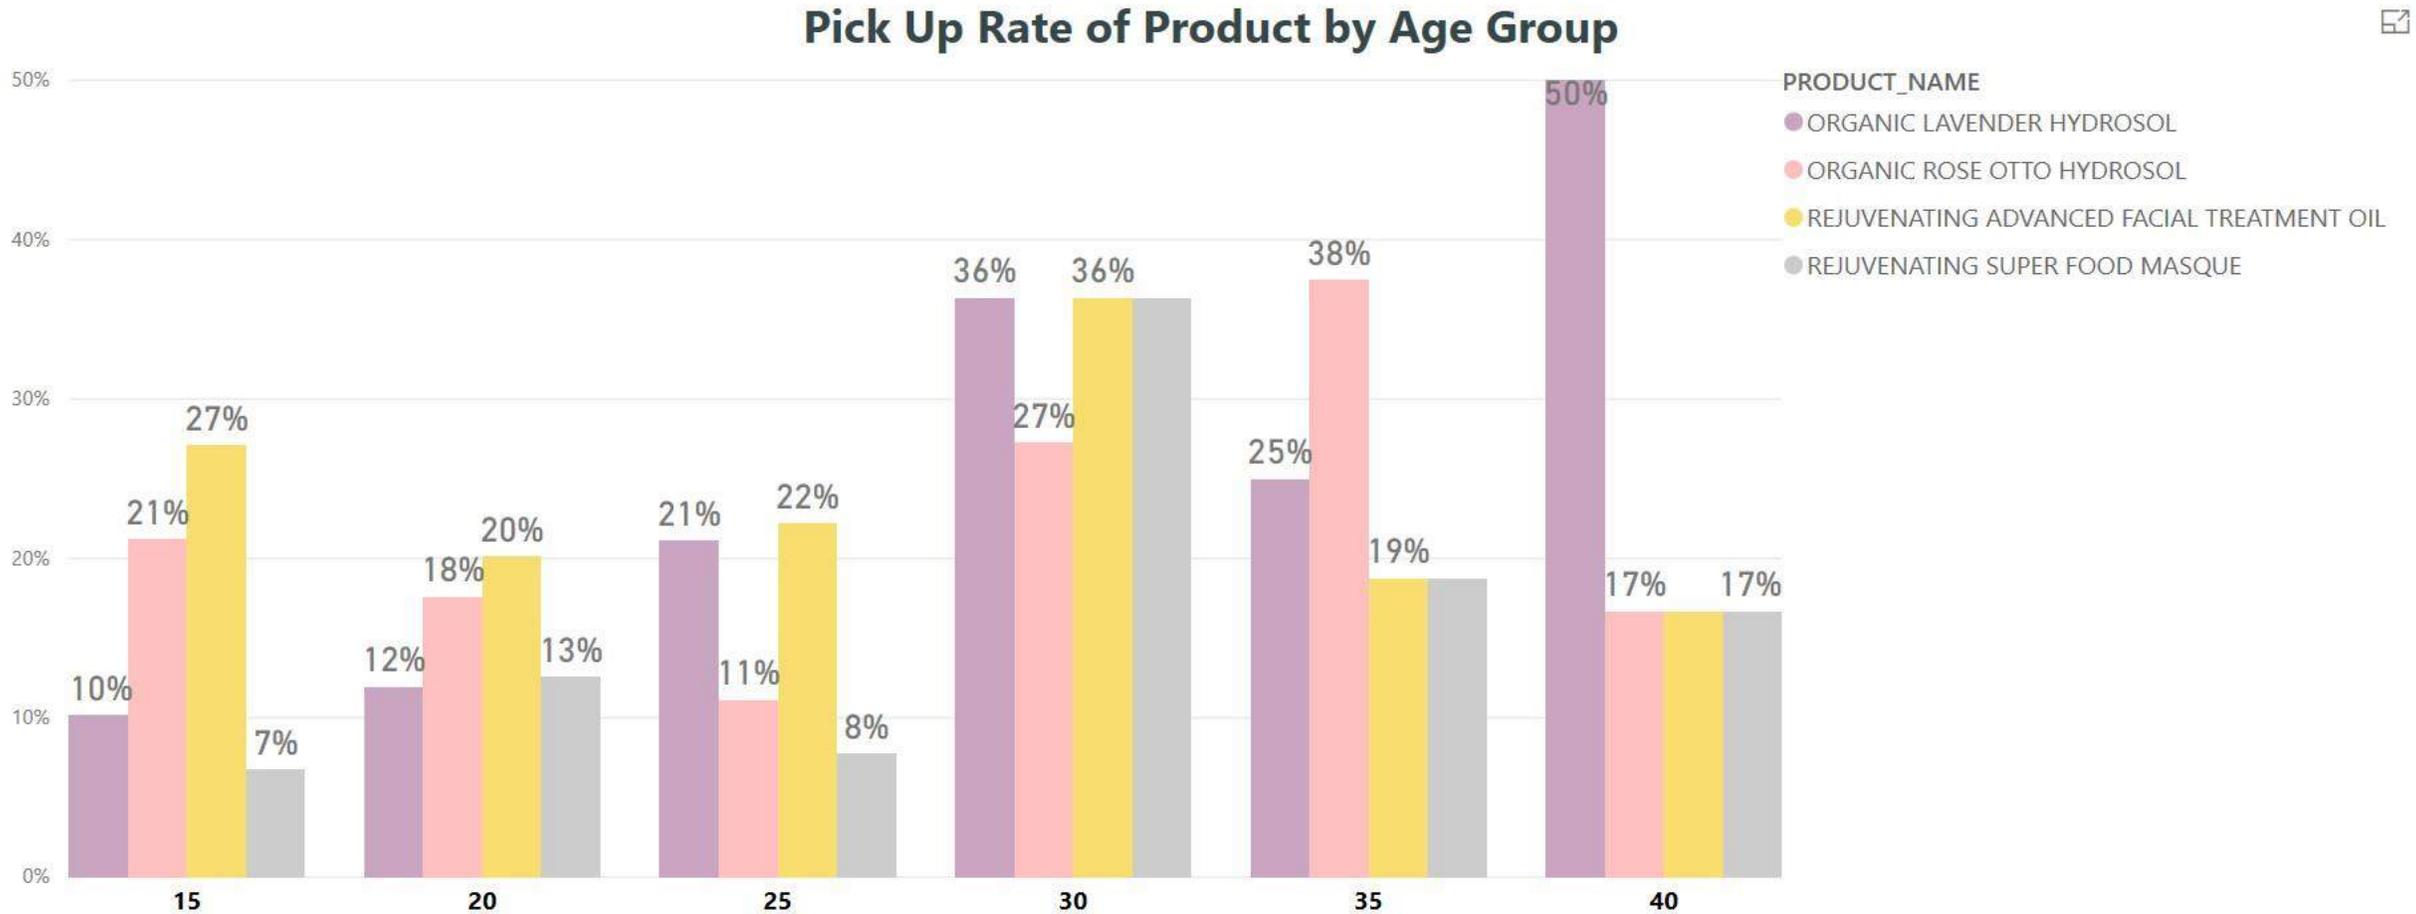

Average DURATION by GENDER

# Pick up rate for products are higher for consumers in their 30s

Consumers in their 30s has a higher pick up rate across all products, it also shows that they are picking up more than one item in a session, as compared to consumers in their 20s.

Note : Consumers can pick up several products per session.

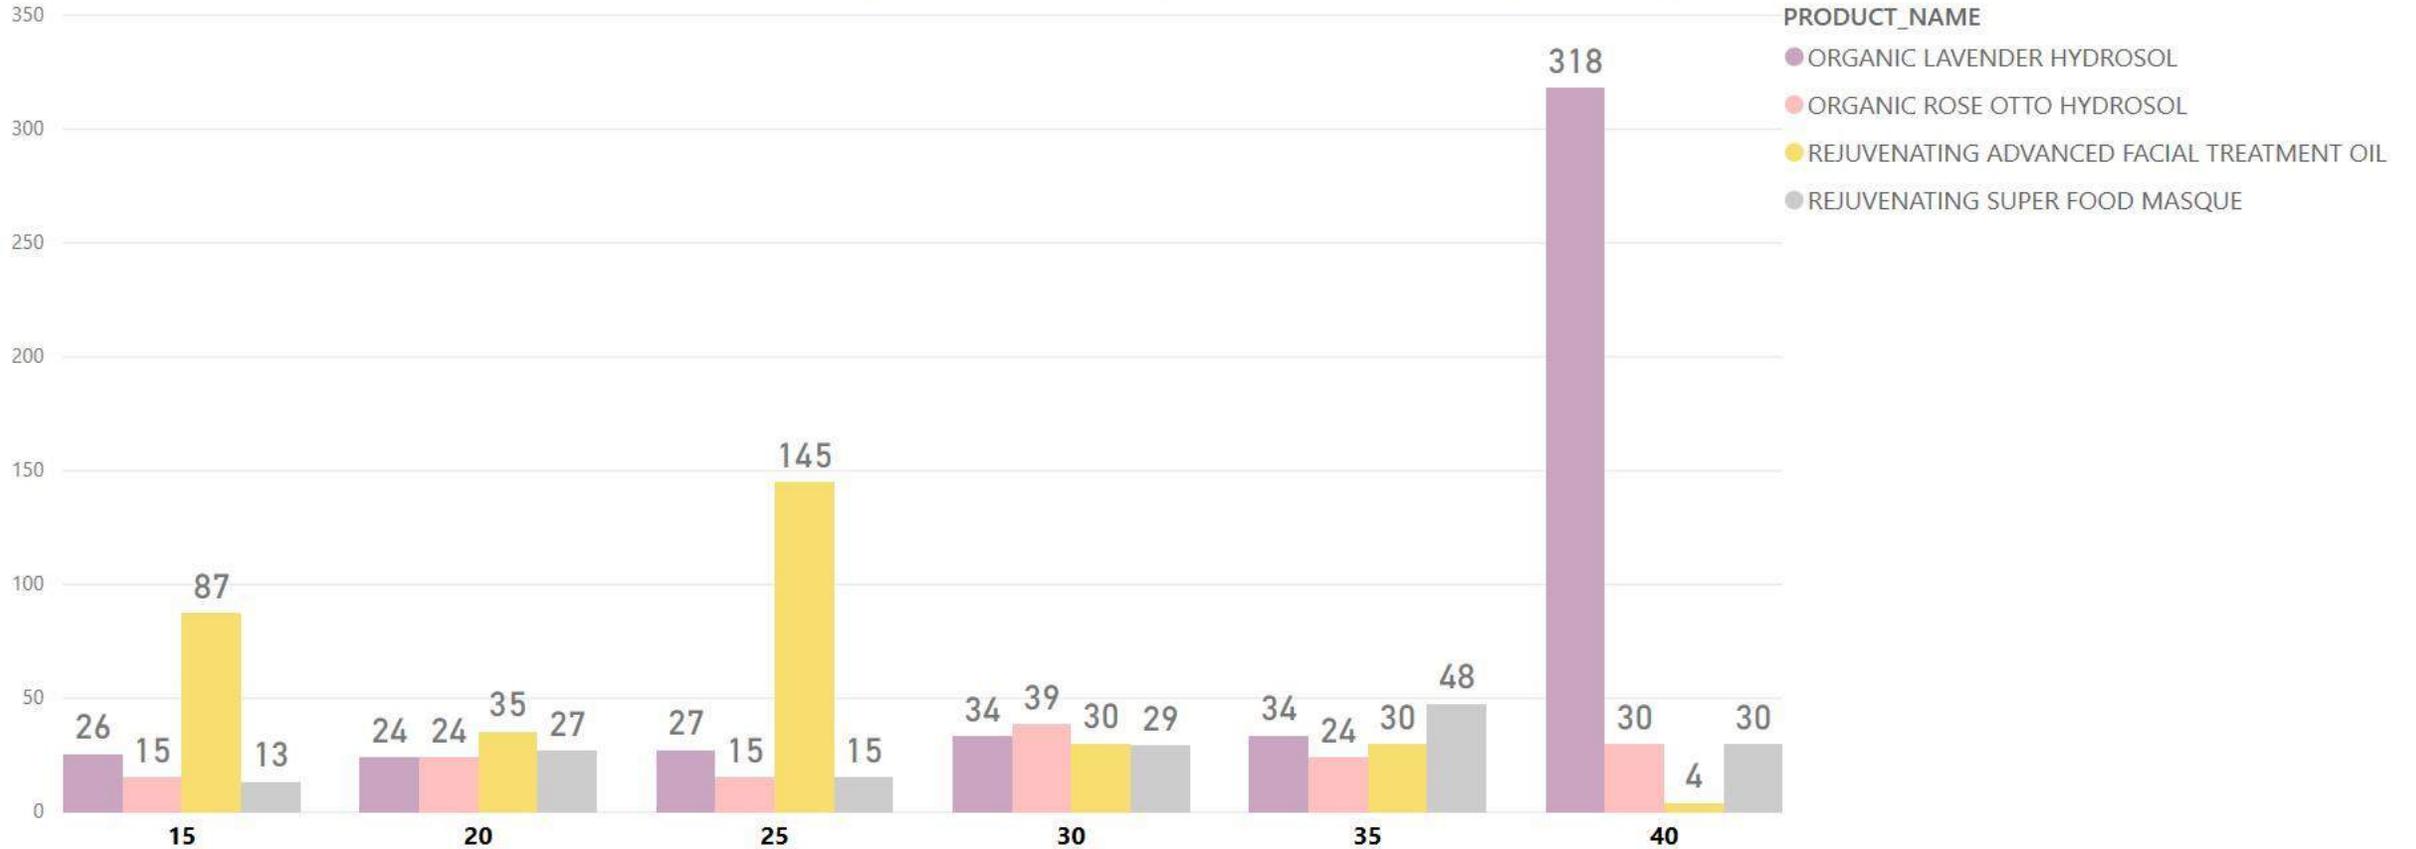

# Consumers below 30 interact with Facial Treatment Oil longer, and consumers in their 40s interact with Lavender Hydrosol significantly longer than other products

The average duration of pick up for all products are is about 25 to 40 seconds, and we can see some significantly higher durations for Facial Treatment Oil for the younger age groups and Lavender Hydrosol for people in their 40s.

Note : Consumers can pick up several products per session.

### Average Duration by Product and Age Group

# Analytics Reports for Product Marketer for Better Insights

---

- Shopper profile analysis such as age group, gender, visit duration, etc.
- Product preference by age group, gender, browsed duration, etc.
- Product preference by new or repeated shoppers
- Product browsed by age, gender, etc.
- Responsiveness to marketing offers by age, gender
- Shopper traffic heat map

Pain Point: **Queuing at Counter**

## The Technology

- Image recognition technology
- 97% accuracy - machine learning
- Takes < 1 second
- Batch processing
- Higher accuracy with more data

## Benefits

- An easy and hassle-free checkout experience
- Barcode and RFID not necessary
- Faster check out
- Time & Cost benefits
- Diverse product category
- Overall in-store checkout time is reduced by 30%

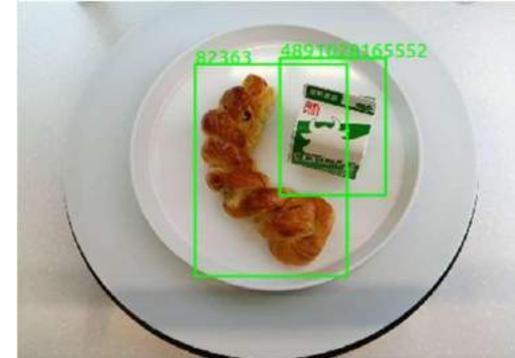

## Improvement

- Maintenance
- Increase SKU count
- Overlapping
- Retraining

## The Partnership

**Fung**  
Retailing

## Different Iteration & the Future

## Themes / Learning Concepts:

- Balance of Automation vs. Human
- Question of Ethics
- Partnership and Growth
- Win/Win Partnership
- Product to Market Fit
- Experimentation & Differentiation
