Since our listing on the SGX-ST Mainboard in 2005, we have carved out an escalating presence in two core businesses - Components Distribution, and IT infrastructure Solutions and Services - in Hong Kong and the PRC markets.

In 2007, I M I Kabel Pte Ltd, a Singapore-based distribution of data control cables for a variety of industries ranging from industrial automation to port and shipyard, offshore oil fields and petrochemical facilities, was acquired by our Group.
